

Discovering Ministry Opportunities with

ExecutiveInsite™
MISSIONINSITE

INTRODUCTION

You may create an ExecutiveInsite report for any ministry area. Each ExecutiveInsite report is organized around 12 themes or “Insites” which are strategic for discovering ministry opportunities. ExecutiveInsite may be used to analyze regional as well as local areas including neighborhood block groups. When using community based information to analyze ministry opportunities we suggest you consider how far people readily travel for work or shopping in order to define your ministry area. You may also want to consider natural, regional, or transportation barriers that impact your location within a ministry area.

Base Area: Your State, _____

A “**Comparative Index**” is used to explain some of the data. This index compares your study area to the entire population of the Base Area which is Your State. The Comparative Index is calculated by dividing the statistic for your study area, by the same statistic for the Base Area and multiplying by 100. For example if the Comparative Index for the Average Age is 125, then your area is 25% older than the average for the Base Area. Conversely, if the Comparative Index for the Average Age is 75, then the Average Age of your area is 25% younger than the Base Area.

INSITE #1: POPULATION AND HOUSEHOLD TRENDS

Page 2

Discussion Questions: Is the population in your study area increasing or decreasing? Whether it is stable or changing, what impact does this have on your ministry decisions?

For additional insight on population change, divide the Percent Change by the number of years to find the Annualized Percent Change. For example if the projected population change is 7.8% over the next five years, divide 7.8 (the projected % change) by 5 (the number of years projected) or 1.5% change per year. How does this compare with the Annualized Percent Change for your congregation over the same intervals? What does this say about your ministry?

Is the population per household increasing or decreasing? As households change, how does that affect the ministry needs of the area?

INSITE #2: RACIAL-ETHNIC TRENDS

Page 3

Discussion Questions: What does the racial/ethnic distribution of your study area suggest to you? Does the information suggest the need for additional current year detail for the Asian and/or Hispanic/Latino groups? This information is available under the “Diversity” tab in the “Build Your Own Report” section of the Demographics page. The Diversity tab also includes Ancestry and Language spoken at home information.

Consider the percent change of the racial ethnic group that reflects your congregation, as a component of the percent change for the overall population for your area. How might this affect your future missional plans?
